

Donald Rastetter

Operations Manager

402-417-2605 | donaldrastetter@yahoo.com | Plano, TX (Open to Relocation) | [Donald Rastetter](#) | [LinkedIn](#) |

Operations Manager with 10+ years leading large-scale teams, including scaling operations from 8 to 40+ members and managing teams of up to 250 employees. Focus the summary on service delivery, KPI management, workflow optimization, and cross-functional operations leadership rather than AI/Machine Learning.

TECHNICAL SKILLS

Operations Skills: Team Leadership, KPI Management, Process Management, Staff Planning, Forecasting, Budgeting, Stakeholder Communications, Mentorship

Languages: Python

Tools/Libraries: TensorFlow, Keras, PyTorch, Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, Bokeh, Plotly, OpenCV, NLTK, Hugging Face, SQLite, Pygame

Core Machine Learning: Supervised and Unsupervised Learning, Machine Learning Algorithms, Ensemble Methods

Deep Learning: Deep Neural Networks, Convolutional Neural Networks (CNNs), Model Training & Optimization

NLP & Generative AI: Natural Language Processing (NLP), Large Language Models (LLMs), Prompt Engineering, Generative AI

Certifications:

PCEP™ – Certified Entry-Level Python Programmer (PCEP-30-02) — June 2025

TECHNICAL PROJECTS

New Business Website | Website Designer | April 2026 | [Auravé Skin Ritual — Luxury Facial Boutique](#)

- Built a new website using Agentic AI for a new business
- Utilizing current prompt and agentic input to create a full website, customer profile, and CRM

EXPERIENCE

Operational Manager | TaskUs | Dallas, TX

Oct 2025 - Current

- Scaled an operations team from 8 to 40+ members while defining workflows, performance standards, and team structure.
- Used KPI tracking and real-time monitoring to exceed month-over-month targets and improve issue resolution for automated vehicle systems.
- Lead a team supporting automated vehicle systems, ensuring rapid issue resolution to restore vehicles to service and minimize downtime
- Design and refine workflows to improve response times, increase resolution efficiency, and support high-availability operations
- Analyze performance data to identify trends, optimize processes, and improve service outcomes
- Train and mentor team members and frontline leaders, building a high-performance, accountability-driven culture
- Partner with technical and internal stakeholders to align operations with evolving system and product needs

Functional Manager | Nelnet | Plano, TX

Oct 2019 – June 2025

- Led operations for up to 250 employees and 12–15 supervisors during a large-scale remote transformation.
- Drove cross-functional projects with IT and Training, improved service levels through data analysis and KPI tracking, and achieved a #1 team ranking across performance metrics within one year.
- Improved service levels through data analysis, root cause identification, and KPI tracking
- Developed leadership training and mentorship programs to increase engagement and internal promotion readiness

Supervisor – Inbound/Outbound Operations | Nelnet | Plano, TX

Aug 2015 – Oct 2019

- Scaled outbound operations by 275% while maintaining 100% client satisfaction.
- Built KPI dashboards in Excel, managed forecasting, staffing, and budgeting, and designed compliance-driven reporting and training programs.
- Managed forecasting, staffing, and budgeting for operational efficiency
- Designed compliance-driven reporting and training programs

EDUCATION

University of Texas Dallas - Powered by Fullstack Academy

Immersive AI & Machine Learning program which utilized active learning to gain proficiency in data technologies and tools including Python, Keras, and TensorFlow, and understanding of machine learning, deep learning, and data science processes.

University of Nebraska

Bachelor of Science - Business Administration
